'Story': the y-axis tracks the difference between each team's overall match score, scaling each game's move-by-move evaluation accordingly, while the x-axis shows moves played in the match; both axes are scaled for consistency and legibility: games in the match are ordered from left to right by the time of their last move (unplayed games are not included). Games in the match are then assigned a place by their original scheduled time, and pairings without a scheduled time are shown last. 'Stats': - (P)W/L/D/L (forfeit) wins/losses/draws; Clock: total clock time used; ACPL: team average centipawn loss (adjusted for moves); Inaccuracies/Mistakes/Blunders: % moves of each error type. Also: ranks only shown for the top 10 teams at the start of the round (ignoring tiebreaks); ranks not shown for Round 1. This plot was compiled on 30 May 2022.

NOTES: 'Games': all played and non-forfeited games have hyperlinked 8 character game IDs; the days/times show when each game started, shown in UTC and rounded to the nearest 15 minutes. 'Story': the y-axis tracks the difference between each team's overall match score, scaling each game's move-by-move evaluation accordingly, while the x-axis shows moves played in the match; both axes are scaled for consistency and legibility: games in the match are ordered from left to right by the time of their last move (unplayed games are then assigned a place by their original scheduled time, and pairings without a scheduled time are shown last). 'Stats': - (P)W/L/D (forfeit) wins/losses/draws, Clock: total clock time used, ACPL: team average centipawn loss (adjusted for moves), Inaccuracies/Mistakes/Blunders: % moves of each error type. Also: ranks only shown for the top 10 teams at the start of the round, ignoring tiebreaks; ranks not shown for Round 1. This plot was compiled on 30 May 2022.
